

65th Annual Report
Utah Department of Alcoholic Beverage Control
Kenneth F. Wynn, Director
July 1, 1999 to June 30, 2000
Summary of Operations

Background

Utah is one of 19 "control" jurisdictions that control the sale of alcoholic beverages, (18 control states and Montgomery County, Maryland, an affiliate of the control state system). These jurisdictions account for almost one-third of the U.S. population, and regulate their own retail and/or wholesale distribution of alcoholic beverages. The result: private seller mark-ups are replaced with revenues generated for the state to support public goals of moderation and revenue enhancement.

The Utah Department of Alcoholic Beverage Control is governed by a five member, part time commission. The commission employs a full time director to oversee the day-to-day operation of the department. The policy of the department, as set by statute, is to operate as a public business using sound management principles and practices, and function with the intent of servicing the public demand for alcoholic beverages.

The Department operates a statewide network of state stores and package agencies that sell all alcoholic beverages, except beer containing less than 4% by volume (which is sold in grocery and convenience stores). The department also administers the liquor laws, and regulates the sale, service, storage, manufacture, distribution, and consumption of alcoholic products.

Utah's liquor control system offers definite advantages to Utah's citizens. Liquor sales provide a major source of income to the state's general fund which relieves the taxpayers of a significant tax burden each year and contributes heavily to state government programs, including health and education. In addition, school lunch funds and taxes are collected and dispensed from liquor sales.

Under the provisions of Utah Code Annotated 32A-1-115 (1953), as amended, up to \$4,350,000 may be appropriated from liquor profits to be distributed each year to cities, towns and counties. The appropriation supplements the budget of each city, town, and county within the state, and is used exclusively for programs or projects related to alcohol prevention, rehabilitation, detection, prosecution, and control. During FY 2000 approximately 2.5 million dollars was distributed.

Annual statistical data clearly shows that per capita consumption of alcoholic beverages is significantly lower in control states:

A Continuing Commitment to Responsible Moderation:

At a time when alcohol is generally regarded as the number one drug problem in America, with millions of adult and teenage problem drinkers, the public responsibility to promote moderation is painfully clear. It's not alcohol itself, but abuse of it that is dangerous. Most drinkers use alcohol in moderation without posing a risk to the safety of others. However, ways must be found to prevent its abuse.

NOTE A: ACCOUNTING POLICIES: The Utah Department of Alcoholic Beverage Control has been designated as an enterprise fund by Section 51-5-5 of the Utah Code Annotated (1953), as amended. The administrative operating budget is subject to legislative controls. The transfer of profits to the general fund is determined by the department's internal accounting system, which is on an accrual basis in accordance with generally accepted accounting principles. The current markup, effective October 1, 1985, is as follows: distilled spirits, wine, champagne 61%, and beer 75%. Beginning with the fiscal year ended June 30, 1978, the department has reported its sales at the gross amount based on published prices, which includes school lunch, sales, and transit taxes.

NOTE B: CASH: All cash receipts are deposited in bank accounts to the credit of the State Treasurer; then, depending on the particular account, these funds are transferred, generally on a daily basis, to the Liquor Control Fund.

NOTE C: INVENTORIES: Inventories are valued at FIFO and consist of merchandise stored in our warehouse and each of the outlets (36 stores and 89 package agencies). It also includes general supplies and liquor bags at the warehouse.

NOTE D: PREPAID EXPENSES: Prepaid expenses consist of advance payments that have been made for insurance, dues, maintenance agreements, and postage that will be expended during subsequent periods.

NOTE E: PROPERTY AND EQUIPMENT: Property and equipment are stated on the balance sheet at cost and are depreciated on the straight-line method over the estimated service lives of the assets.

NOTE F: ACCOUNTS PAYABLE: Accounts payable represent the current liabilities incurred for incoming freight, operating costs, and the purchase of merchandise.

NOTE G: FINANCING OF FIXED ASSETS/DUE TO GENERAL FUND: During the fiscal year \$193,113 in fixed assets were purchased; therefore, that amount was withheld from the transfer to the General Fund and adjusted to the long term debt due to the General Fund. An amount equal to the depreciation reduces that debt.

NOTE H: RENTALS AND LEASES: Leases are the result of competitive bids or negotiations. A standard lease agreement has been developed. The more recent leases now provide for payment of taxes and sometimes insurance when they exceed those of a base period. None of the current leases contain provisions for minimum payment in case of cancellation by the state, but they all contain a provision in case of a change in the law that might have an impact upon the operation of the department.

NOTE I: CASH OVER AND SHORT: The department uses a "forced sales" system to determine the sales. If an item is not in the inventory, it is assumed that it has been sold. Delays in reporting shipments, errors in inventories, and other items that are not reported correctly, can create a cash shortage or an overage. This is usually offset from one month to the next.

Liquor Outlets in Operation	
State Liquor Stores	36
Package Agencies	89
Case Sales	
Total case sales in all categories of spirituous liquor amounted to 1,416,059 cases in fiscal year 2000, an increase of 67,909 cases from fiscal year 1999:	

Net Profit, School Lunch Tax and Sales Tax are State Revenue. Percentages based on gross sales and fees of \$138,976. (Values shown in rounded thousands of \$)

Exploded segments represent spendable State revenue based on Smirnoff Vodka, 80 proof retail price of \$9.95.
